## New Locomotive Arrives on the Canton Railroad

*Bob Jackson photo*

On October 23, 2020, Canton Railroad's Heritage Unit #1906 was delivered to its new home by NS train No. H10 on its way from Bayview Yard to the Seagirt Marine Terminal. The locomotive model is NZE SE15B T4L as designated by Knoxville Locomotive Works. The number 1906 is also the year the Canton Railroad in Baltimore was chartered.

Coupled to #1906 is No. 1501, an EMD SW1500 built in September 1967 as Southern Pacific 2455 with frame number 4518-6.

Read about the new locomotive in this High Green!
