## GenOn Retiring Coal-Fired Units at Chalk Point and Dickerson

*Photo by Leondre*

On May 15 GenOn announced it has initiated the process to retire its three coal-fired electric generating units at its Dickerson generating station. This was followed by an announcement on August 10 that it has also initiated the process to retire coal-fired electric generating Units 1 and 2 at its Chalk Point generating station. Read about it in this High Green!

In the photo above, CSX 5478, a GE ES44DC, leads CSX 486 and 5118, both GE AC44CWs, past MoW equipment at Milepost 0.3 at the beginning of the Herbert Subdivision, Brandywine, MD, on May 4 at 1:52 p.m. as the trio pull empty coal hoppers from Chalk Point.
