“A One in a Million Chance”

On September 25, 2020, the locomotives of three empty coal hopper trains were photographed while awaiting departure at Consolidated Coal in the Canton Industrial Area of Baltimore, Maryland. The rail photographer described catching all three as “a one in a million chance.”

From left to right: NS 8114, a GE ES44AC built in March 2012, a Heritage Unit decorated with the paint scheme of “the original Norfolk Southern” alongside NS 3611, a GE ET44AC, and then CSX 3273, a GE ET44AH.
