Pennsylvania & Southern Railway

Hayden Lehman photo

In the greater Washington, DC, area most locomotives wear CSX or Norfolk Southern colors, but just two hours away near Chambersburg, PA, the Pennsylvania and Southern Railway has a large roster with multiple paint schemes. In this photo, No. 1520 (SW1500, red and black), No. 1533 (SW1500, red and grey), and No. 1210 (SW1200RS, orange and grey) sit outside the enginehouse on August 25, 2022. Read about the railroad in this High Green!
