## Reunited with an Old Friend

*Paul Bergdolt Photo*

In 1964 former Canadian National 3254 stood on panel track on the grounds of the Ashland Court Motel in Pennsylvania. Chessie's future Treasurer, Paul Bergdolt, had come to town to ride the Pioneer Tunnel steam train and take the mine tour. The CN locomotive was an unexpected find, and Paul's father took a picture of him standing next to his sister, Sara Bergdolt (now Sara Munzer of Ayden, NC). Behind the locomotive stands the *Meadow Lark*, the Pullman car presently behind the Gettysburg enginehouse and the focus of a restoration effort headed by Chessie member Gabe Gerber. Read about the locomotive and the Pullman in this *High Green!*
