CSX Special Comes to Washington

Jim Kleeman photos

On Tuesday, June 30, 2026, after spending the night in Benning Yard, CSX's *America 250* train backed into Alexandria Union Station for an invitation-only ceremony followed by a slow run north across the Potomac River, around the south side of Washington, DC, over the Anacostia River, north to Hyattsville and then south into Washington Union Station. As the train rolled over the Anacostia Bridge, a CSX freight train came alongside it. Read about the *America 250* train in this High Green!
